

ISEE PREPARATION

Team Tutors approach: Our customized ISEE preparation targets each student's individual needs. Our strategies produce confident test takers and private sessions make every minute of test prep count.

Diagnostic Exam: We administer a full-length diagnostic exam to assess each student and use the results to design a program that will shore up weaknesses and bolster strengths.

Customized Materials: Our proprietary materials present concepts and strategies for each section of the exam including the essay portion. We tailor practice material to each student's unique test taking needs.

Practice Tests: We administer full-length practice exams in a group setting so students get comfortable taking a 3-hour exam in real test-taking conditions. They gain experience using a bubble sheet and taking notes in a test booklet like they will on the actual day of the exam.

Private Sessions: We come to your home at a time that is convenient for you. Our basic program includes 15 ninety-minute sessions. We suggest that students begin their prep over the summer so they are not overwhelmed during the busy school year.

TEAM TUTORS vs. GROUP CLASSES

Individual attention and a customized course of study vs. one-size-fits-all.

At home tutoring at a convenient time vs. students grouped together by timeslot and classes with mixed grade levels.

An efficient 90 minutes of study per session vs. 2.5 – 3 hour group classes which exceed the ability to effectively absorb information.

Summer prep available vs. group classes only offered during the school year.

Full-length practice tests in group settings vs. at-home, online practice exams that do not simulate actual test taking conditions.
